Google Analytics Advanced

Duration: 1 Day

Overview:

Aspect Training's Google Analytics Advanced training course is the follow-up to our Google Analytics Fundamentals training course, and focuses more on technical implementation and configuration. If you are going to use Google Analytics data to make changes to your business, you need to make sure that data is accurate.

Prerequisites:

Although Aspect Training's Google Analytics Advanced training course is more technical, it builds on the concepts of our Google Analytics Fundamentals training course, which is a prerequisite for this course.

Course Topics:

Recap on...

- Architecture and process
- Introducing the .js file
- Managing profiles
- Emailing and exporting Reports
- Advanced Filters

Goals and Funnels

- Dynamic Goals
- Cross-domain tracking
